

The 4 requirements

to create a

Continuous Improvement Culture

Continuous Improvement

is changing
for the better

Do the work

Be the change!

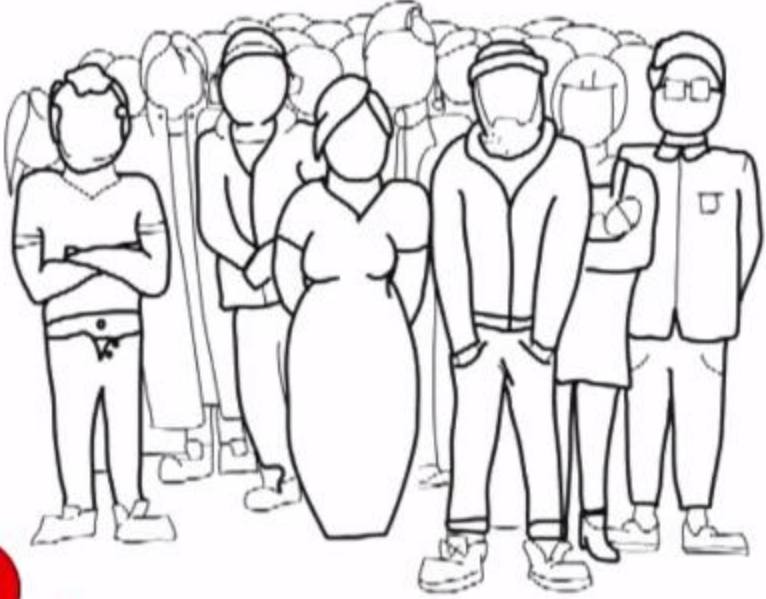

It means new ideas

are generated, tested, refined,

and implemented

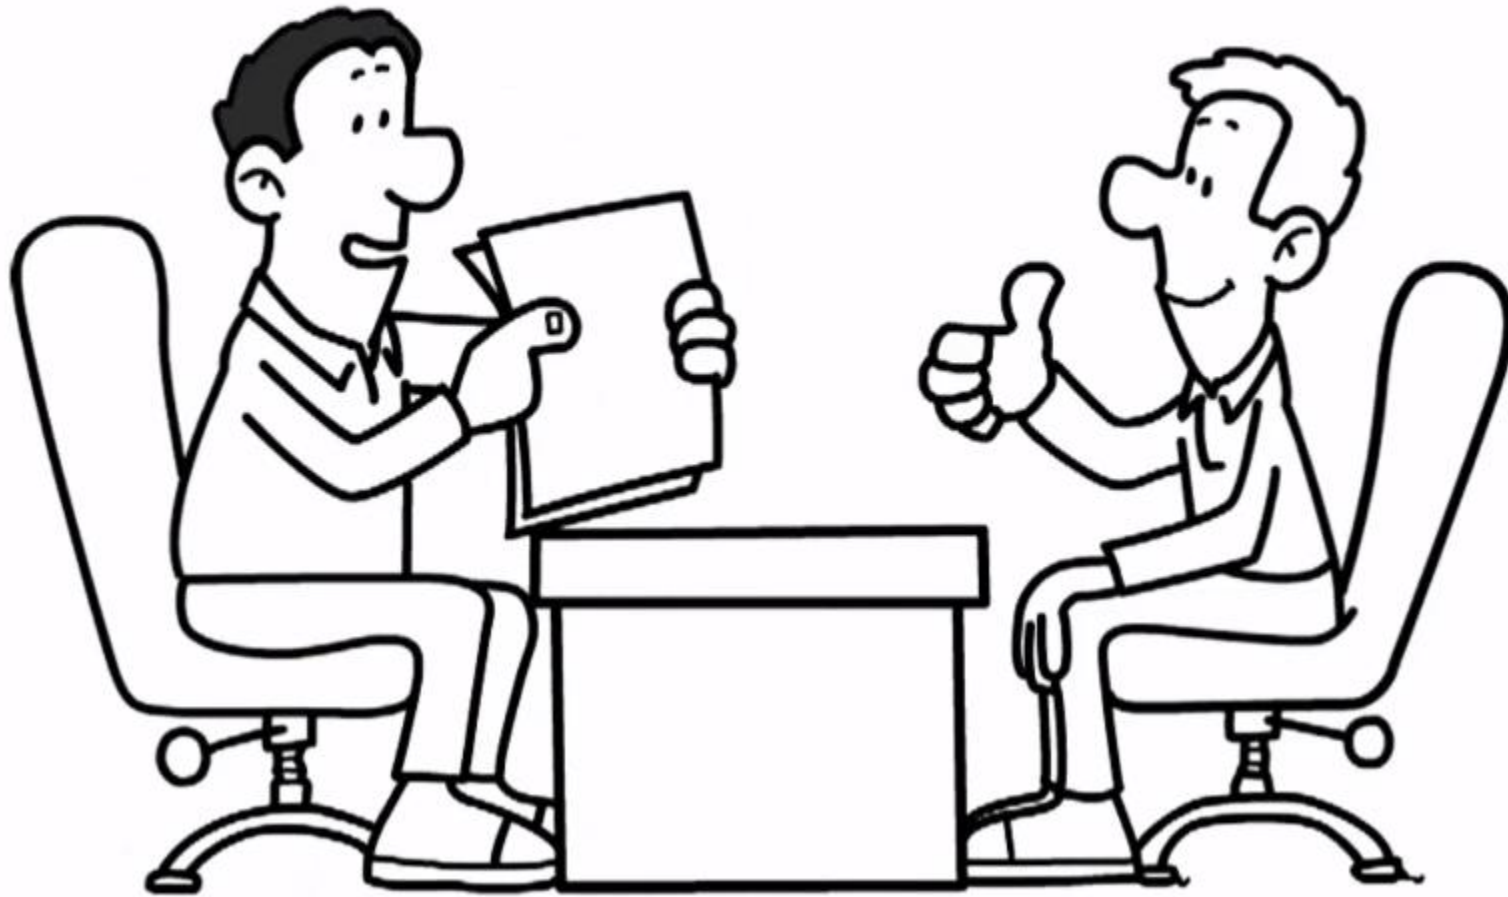

by everyone
every day everywhere

To create a **Continuous Improvement Culture**

you need:

1) WILL – You have to believe that good enough never is

You need to foster

an environment of curiosity

Why?

Why not?
What if?

2) SKILL – It is about development

**and it takes time
and effort**

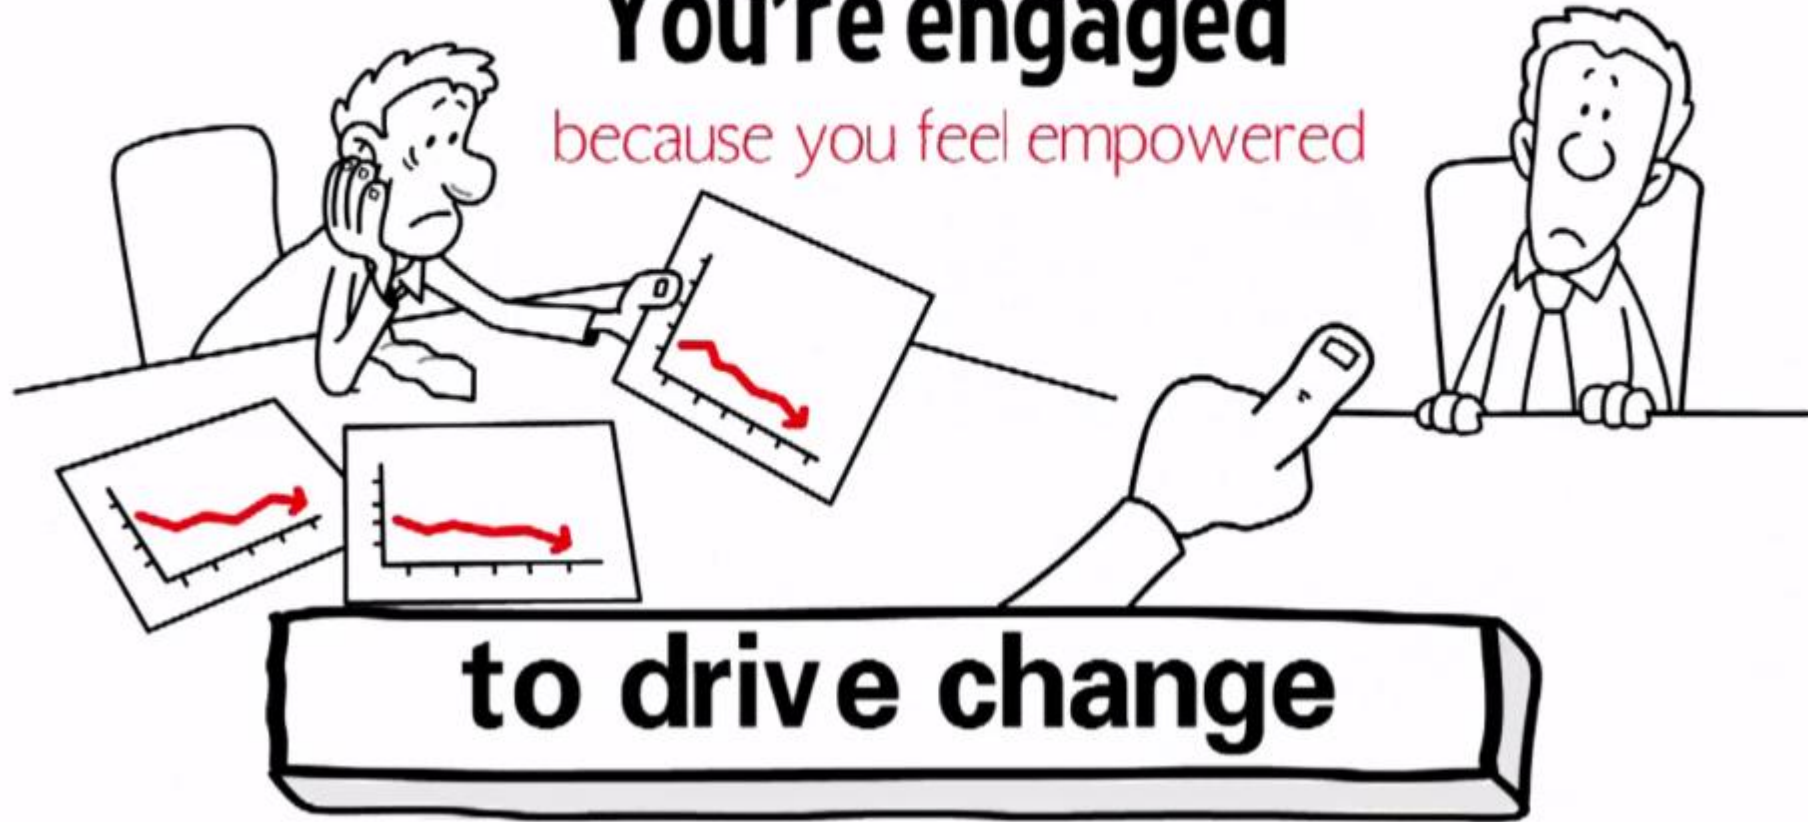

3) AUTHORITY

- Truly authorize everyone to make improvements

You're engaged

because you feel empowered

4) GUIDANCE – It is about boundaries

learning
and development
